R5.2a. Dissemination plan for BUT participants in the CONN'COR project

1. Conference papers (activity 5.3)
2. Publication of project results in the university newsletter, on the faculty website, and on faculty social media (activity 5.2)
3. Presentation of the project results to members of the Industrial and Program Council of the Faculty of Electrical Engineering (activity 5.8)
4. Workshops at the Electrical School Complex (activity 5.8)
5. Presentation of CONN'COR results to participants of the International Staff Week (activity 5.8)
6. Presentation of the project results to the faculty staff community (activity 5.8)

Note: According to the application form, the dissemination meeting at BUT should be combined with the final management team meeting and last 8 hours (activity 5.8). However, in order to better reach individual target groups, we decided to organize this meeting in four parts, at different times and locations.

R5.2a. Dissemination plan for UNI participants in the CONN'COR project

1. To spread information about the CONN'COR project to students of the Faculty of Electronic Engineering (students of the basic academic and master studies) during M1-M3. The students will be informed during promotion days, as well as during lectures and exercises. In-person dissemination.
