Erasmus+ CONN'COR Project
"Connect, compare and repair for a common future with Ukraine: a focus on Electrical Engineering teaching"
Project # 2024-1-FR01-KA220-HED-000250882

For the period 1st November 2025 – 31st January 2026

This document explains and summarize how the CONN'COR team proceeded for communication all along the project.

For each coordination meeting all partners main coordinators were present : Jaroslaw Makal and Jaroslaw Forenc (BUT), Goran Djordjevic (UNI), Iryna Moroz (LPNU) and Emilie Avignon-Meseldzija.

Each coordination meeting lasted minimum 1h00 and focused on how to implement the tasks in each workpackages. Most of the time the transcription was activated for these meetings, but a report was also written, at least few summary lines. Besides regular meetings between main coordinators, common webinar were also organized.

Below is a table summarizing all common meetings: coordination meetings and common webinars. Webinars with learning assistants, meetings between students and conferences provided by LPNU by all partners are of course not taken into account.
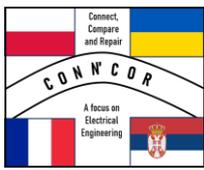

They were during the period of the project **16 coordination meetings** allowing a fluid organization and implementation of all the tasks. **It corresponds to approximately 1 coordination meeting per months.** These coordination meetings are in green in the table.

In person meetings were held three times for two days 8-working hours in CS, UNI ad BUT. These meeting are in orange in the table.

Common webinar titles appear also in the tables with no highlight.
