- f) to organize a networking and celebration event to promote project achievements.

R5.2a. Dissemination plan for CS participants in the CONN’COR project

1. CS gave **one lecture** to secondary school pupils (R5.2b).
2. CS published **LinkedIn posts** to announce meeting and lectures
3. CS developed and updated the **internet Website** with wordpress
4. CS made the students participate **with two papers** to the **Young Professional Event at IEEE NEWCAS 2025** (two articles) for R5.3a. as results from “Research based teaching” in R3.4
5. CS promoted the activity “Home Compatible Labworks” in the framework of **IoT project department** in order to recruit students to meet Ukrainian students. A poster has been created.
6. CS organized the **dissemination workshop** at CS (**R5.7**):

- a) CS invited all GeePs laboratory members, department of teaching, students, head of study, some industrial partners and international relation department;
- b) CS prepared several posters of the CONN'COR project;
- e) CS proposed a convivial breakfast

R5.2a. Dissemination plan for BUT participants in the CONN'COR project

1. BUT presented **one conference paper** (activity 5.3)
2. BUT published project results in the **university newsletter**, on the **faculty website**, and on **faculty social media** (activity 5.2b)
3. BUT gave **2 lectures** to secondary school pupils (R5.2b).
4. BUT presented of the project results to members of the Industrial and Program Council of the Faculty of Electrical Engineering (activity 5.8)
5. BUT presented Workshops at the Electrical School Complex (activity 5.8)
6. BUT presented CONN'COR results to participants of the International Staff Week (activity 5.8)
7. BUT presented the project results to the faculty staff community (activity 5.8)

Note: According to the application form, the dissemination meeting at BUT should be combined with the final management team meeting and last 8 hours (activity 5.8). However, in order to better reach individual target groups, we decided to organize this meeting in four parts, at different times and locations.

R5.2a. Dissemination plan for UNI participants in the CONN'COR project

1. UNI spreaded information about the CONN'COR project to students of the Faculty of Electronic Engineering (students of the basic academic and master studies) during M1-M3. The students were informed during promotion days, as well as during lectures and exercises. In-person dissemination.
2. UNI spreaded information about the CONN'COR project to members of the Department of Telecommunications during M1-M2. In-person dissemination.
3. UNI informed about the project available on the **UNI official website**.
4. UNI gave **3 lectures** to secondary school pupils (R5.2b).
5. UNI promoted the CONN'COR project to secondary school pupils' population and their teachers. The number of popular lectures were defined in coordination with other partner institutions.
6. UNI was responsible for the Instagram profile of the CONN'COR Project. The profile was opened until M2.
7. UNI published **two papers** that have been presented at conferences and will be visible via ieeexplore.ieee.org. The content of the paper were connected with project results (R5.3a and R5.3b).
8. UNI organized the **dissemination meeting (R5.5)**. The target groups were secondary school pupils and their teachers, as well as academic staff of UNI. Information about the dissemination meeting were available on the UNI website.
9. UNI staff participated at the final dissemination meeting that is planned to be held at BUT.
